

Crazy Horse

Construction Notes:

- Start by placing the Origin cone.
- Measure, mark, and place cones on the 50' origin line.
- Measure, mark, and place cones on the other 50' line (6' left of the origin line)
- Measure, mark, and place cones on the far left line (exit chute)
- Measure an additional 2' beyond the origin line and 15' over for the circle center.
- Place the circle cones.
- Measure 38' up the origin line and over 11 feet and place cones.
- Place filler cones as desired.
